A grade zero Spirit Ball? Is he crazy?
It is very common and can't even beat goose.
What else could he do? Having a grade zero ball is better than a 5 year ban
Keke... originally it's his first spirit...
In the setting of <<Yu Ling Shi>>, are ranked from grade 0 to 7, the higher the grade, the more powerful the spirit.

There are wind, fire, water, earth, gold, wood, light, dark as well as worm, poison and etc types.

Getting a higher grade spirit as the start saves a lot of time
It is him!
You are the best!
To raise the grade of a spirit, you need alot of energy as well as luck.
I wonder if you have a special someone, if not, I have a single daughter.
If you are free, want to have dinner with me?
Why are you sad?

I don't remember teaching to act like this.
But, I panicked and picked grade zero spirit...
